Hollywood, FL • 954-548-7027 • khaylahrose03@gmail.com

Portfolio: khaysdev.netlify.app

EDUCATION

Jackson State University

August 2021 - May 2025

Bachelor of Science in Computer Engineering

GPA: 3.4, Deans List: Fall 2021 - May 2025

Extracurriculars: Aristocrats STEM Program, Du Bois-Harvey Honors College, and Sonic Boom Of the South

Relevant Coursework: Embedded Systems, Computer Science I, Computer Science II, Data Structures & Algorithms, Discrete Structures, VHDL, Electronics, Signals and Systems, Computer Architecture, Computer Organization, Senior Design Projects I, Special Topics - Java

Technical Skills

Programming Languages: C, C++, C#, Java, Python, Flask, Kotlin, React JS, React Native Expo, JS, HTML, CSS, and MySQL.

Software Tools: Arduino, ROS, KiCad, ESP32, Android Studio, Firebase, MySQL, Git, Figma, REST API, JSON, Unity, Fusion 360, AutoCad, Revit, Linux, Power Apps, SharePoint, and Power Automate.

Work Experience

Full Stack Developer Innovation Fellow, Jackson State University

September 2023 - May 2025

- Designed and developed the Innovation Center website using React JS for the front end and Firebase with JavaScript for the backend.
- Support center operations by providing tours, monitoring technology, and assisting with 3D printing tasks.

Strategic Foresight Web Developer Intern, Autodesk

May 2023 - August 2023

- Built a dynamic web application to make the FY 2024 report interactive and engaging.
 - Designed the UI using Figma, translating PowerPoint concepts for a functional user interface.
 - Developed the front end using React JS and implemented the backend with Firebase and JavaScript, managing the project through a GitHub repository.
-

Projects

Senior Design: CHROME

August 2024 - May 2025

- Developed an autonomous robot to pick up food orders from Thee Fuel Station and deliver them to students, designing and 3D-printing its PETG frame.
- Integrated a 360° LiDAR sensor for real-time navigation and obstacle avoidance, allowing the robot to detect obstacles and map its surroundings.
- Developed control systems using Arduino Mega, Raspberry Pi, and various electronic components.

Lilly HBCU Virtual Hackathon 1st Place Winner, Eli Lilly

December 2022 - March 2023

- Developed an innovative healthcare app solution.
- Lead the development of MEDISCAN, an app that modernizes Eli Lilly's medical data for the use of doctors and patients.
- Designed and built the app using Figma, Android Studio, and Kotlin to deliver a dynamic and user friendly experience.
